2. Or mail in your registration to:

Warranty Registration Dept.  
Bay Tree Technologies USA, LLC  
P.O. Box 1025  
Millers Creek, NC 28651

### How to Care for your PureWood Product

Your selection of PureWood is a sound investment for your home. To keep your investment beautiful over the years, you should store, apply, and maintain the Product in accordance with BTT USA's application and maintenance instructions in place at the time of purchase. This warranty shall be null and void and of no legal effect whatsoever if BTT USA's application and maintenance instructions in place at the time of purchase are not followed.

### Paints, Stains and Protectants

Coatings are not necessary with PureWood products to protect the wood from decay; a factory-applied sealant has been applied to protect the product for 18-24 months in application. To protect the wood from the natural weathering process or the silvering of product due to direct sunlight exposure, a high-quality UV protector should be used. Please follow the specific coating manufacturer's instructions for use. See our Care and Maintenance instructions for suggested coatings.
