BIEWER SAWMILL –WINONA, MS – SHIPS FIRST TRUCKLOAD

April 12, 2021 – John A. Biewer Company (Biewer Lumber), headquartered in St. Clair, MI, announced that the first truckload has shipped from their latest sawmill in Winona, MS, earlier this month.

The Winona facility is Biewer's second facility in the south. Production will be 250+ MMBF annually.

"We have had a great experience with our mill in Newton, MS, which began operating in early 2016, and we were able to implement enhancements to the design to improve efficiencies in Winona," said Tim Biewer, President.

Biewer's latest southern facility will be led by the fourth generation of the Biewer family; Tim Biewer's son, Blake Biewer. "It has been very rewarding to be a part of this state-of-the-art facility from the start, and I am excited for the future of our company," commented Blake.

Biewer Lumber is a fourth-generation, family-owned group of companies that are committed to the environment and best forest practices. Biewer's family of companies currently includes five sawmills, three treating and distribution facilities, and a full-service logistics company.
