FACTORY STAINED PICKETS

SUNRISE

Unlike standard pressure-treated pickets, ColorPRO is complete after installing— no need to paint or stain, which saves time and money! Produced from southern yellow pine, ColorPRO pickets are factory-stained with a natural cedar tone, giving inspiration to the name SUNRISE. Each ColorPRO picket is color-treated to protect against rot, decay and termites.

PRODUCT BENEFITS

Treated to Protect Against Rot, Decay and Termites

Factory Applied Color • No Need to Paint or Stain
